HomeLogic Adds Lutron Lighting to the OneHome® Solution

Marblehead, MA–September 9, 2005: Homelogic, LLC announces the addition of Lutron’s HomeWorks® and RadioRA® lighting control systems to the **OneHome** family of compatible lighting systems. These systems are added to the growing list of compatible lighting control which includes EDT, Leviton, Lightolier, OnQ/ALC, PulseWorx, Vantage, and any X-10 system. **OneHome** adds event and time-based control, remote access, and a simple interface to control lighting systems and enables integration with other in-home systems such as security and video.

“The integration of Lutron’s lighting systems is another example of our effort to provide our dealers and their customers with choice. HomeLogic is committed to integrating leading third party systems into the **OneHome** solution to help dealers deliver ease-of-use and consistency for homeowners” stated Buddy Duncan, co-founder of HomeLogic. “We added HomeWorks and RadioRA to our portfolio of supported lighting systems because of strong demand from our dealers, and also because of the added value customers gain by integrating Lutron lighting into a **OneHome** system,” he added.

“Lutron dealers can now deliver enhanced convenience and control by integrating HomeWorks or RadioRA into a **OneHome** solution, along with security, climate, audio and more” stated Joe Lautner, VP of Marketing and Sales for HomeLogic.

About HomeLogic

HomeLogic is dedicated to delivering market leading entertainment and control solutions that enhance a home owner’s comfort, convenience and peace-of-mind. We offer a turn-key solution which requires no custom programming, simplifying the selection and installation process as well as lowering the overall cost to homeowners.

For more information, contact Joe Lautner at 781-639-5155, extension 214 at HomeLogic or (jlautner@homelogic.com).
